# Compact Reformer

1. The **Vertical Pulley System (VPS)** enables users to customize pulley height based on their requirements.

2 The **headrest** has 3 adjustment angles and can be adjusted even while lying down on the carriage.

3. The Compact Reformer's **footbar** design allows for seamless positioning at four different angles.

4. The Compact Reformer **foot platform** is wide and robust for comfortable exercises without using any extension

5. Thanks to its premium materials and expertly designed **carriage**, the Compact Reformer always operates smoothly and quietly.
